PORTFOLIO [aserrano.dev](#)

PROFILE

Cross-platform application developer (Higher National Diploma in Multiplatform Application Development, 2026) with a technical background in hardware and systems. I build native Android apps with Kotlin and Jetpack Compose, cross-platform apps with Flutter and web apps with React and TypeScript, and take them end to end: interface, logic, persistence, testing and release. During my internship I built GPS Trackia, a multi-tenant SaaS for vehicle geolocation. Looking to join a development team where I can contribute from day one.

TECHNICAL SKILLS

Mobile development	Kotlin · Jetpack Compose · Flutter · Dart · Material Design
Web development	React · TypeScript · JavaScript · Vite · Tailwind CSS · HTML & CSS
Data & persistence	SQLite · SQLCIPHER · Room · DataStore · IndexedDB · Firebase
Tools	Git & GitHub · Android Studio · Vercel · PWA · Local notifications
Systems	Hardware diagnostics and repair · Operating system installation and configuration · Networking

EXPERIENCE

AI Developer · Internship Adapta Business Consulting · Built GPS Trackia: a multi-tenant SaaS platform for managing vehicle geolocation devices.	April — June 2026
IT Technician · Internship D.A.I Software · Repaired legacy computers and recovered files from hard drives. · Installed and configured operating systems. · Tested applications and wrote technical reports.	April — June 2023
Warehouse operative Cofares (May — July 2024) · Suman Social (occasional days, 2025) · Order verification with a barcode scanner, stock control, device checks and palletising.	2024 — 2025

PROJECTS

Android (Kotlin), Flutter and web (React) applications built on my own. Each one with an interactive demo, a technical write-up and its source code in my portfolio:
